Question

I refer to the Department of Finance tender concerning the Dumas House façade and podium restoration program, and ask:

- (a) has the tender been awarded;
- (b) if yes to (a), who won the tender and what was the tender cost; and
- (c) if no to (a):
 - (i) has the tender been withdrawn; and
 - (ii) if the tender has not been withdrawn, what is the current status of the tender?

Answered on 16 March 2016

- a. Yes
- b. The main construction contract for the restoration of the Dumas House façade and podium has been awarded to Duratec Australia Pty Ltd for \$19,944.10 (GST inclusive).

Early contractor involvement and exploratory works have informed the scope, time and cost. However, given the nature of the works involved and the associated risks, this may change over time.

- c. Not applicable
